Code Compliance Department

Graffiti Management Program

WAIVER OF LIABILITY

The City of Garland Code Compliance Department (CCD) has found graffiti on your property. **Section 32** of Garland's Code of Ordinances requires you to remove or properly paint over any graffiti on your premises by the compliance deadline on the Notice of Violation that the CCD has issued.

<u>Please be advised that the City of Garland will remove or paint over said graffiti at no direct cost to you if you sign this waiver of liability.</u>

I, the undersigned, authorize the City of Garland and its duly authorized graffiti removal contractor to enter upon my private property for the expressed purpose of removing or painting over graffiti.

By signing this waiver, I understand that neither the City of Garland nor its graffiti removal contractor shall be liable for incidental damage to real property that is caused by the physical process of graffiti removal. I also understand that, though the City will endeavor to match existing finishes on walls, structures, fences, etc., the paint used to cover graffiti may not match the original color of the surface on which the graffiti exists.

In addition, the high pressure cleaning or mild abrasive blasting may leave visible differences on building materials.

my property as long as I am the owner of record.
